MANAGEMENT DISCUSSION AND ANALYSIS

a) Industry Structure and Developments

The Company is engaged in manufacturing of PVC Film and PVC Leather Cloth.

PVC Film is majorly used in the pharma application for tablets packaging, healthcare products packaging and is gaining acceptance in the packaging of consumer goods like shaving products, tooth brushes, batteries, tools and toys etc.

PVC Leather Cloth is mostly used for car upholstery, motor cycle seat covers, auto rickshaw hoods and seats, tractors, trucks and buses. It is also used for making ladies bags and footwear.

India is one of the most promising exporters of plastics among developing countries. Demand from original equipment manufacturers (OEMs) has led the Indian plastic industry to focus more on delivering products customised in line with end-user needs like design, style, and pattern. The Indian plastics industry offers excellent potential in terms of capacity, infrastructure and cheap labour availability. Among the industry's major strengths is the availability of raw materials in the country. With increasing usage of PVC leather cloth in automobiles, consumer packaging and impact of increased infrastructure spending in India, the plastic industry will emerge as a giant in the industrial scenario of India.

b) Opportunities and Threats

Opportunities: Growth in industry will be majorly impacted by the increased growth from end use industries, growing consumerism, government initiatives etc. The Company is already an established supplier to Suzuki, Hyundai Motors, TVS Motor Company, Maruti, Manindra and Mahindra, Volkswagen and Daimler Benz. Growing consumerism will also contribute to growing demand.

PVC is consumed by a large number of small and medium sized manufacturers to make finished products. In recent years, manufacturing of finished PVC products has experienced rapid growth and it remains one of the fastest growing sectors in India and around the world. There has been growth in demand from pharma sector and new applications for visual packaging auguring for PVC film. This would be definitely a positive and good opportunity to your Company which is one of the prominent players.

Threats:

Major threat is due to increased cost of raw materials, high cost of finished plastic products, ever increasing crude oil prices, high finance cost, import threat from other countries due to specialized processing, replacement threat from substitutes which would affect the margins.

c) Risks and concerns

The major risks and concerns as perceived by the Company relate to increase in prices of principal raw material due to increase in the prices of crude oil and rupee devaluation. The Company has devised a system to identify and take corrective and quick decision as and when this risks and concerns arise.

However, the increase of interest rates has affected the margins severely.

Annexure – “B” to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the Internal Financial Controls Over Financial Reporting of Fenoplast Limited (“the Company”) as of 31st March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and

dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

4. Use of estimates:

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

5. **Borrowing Costs:**

"Borrowing costs includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost."

"Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. "

6. **Investments:**

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

The company has created an approved gratuity fund which has taken a group gratuity cum insurance policy with Life Insurance Corporation of India, for future payment on gratuity to employees. - c) Provident Fund and Family Pension Scheme are accounted on accrual basis and charged to Statement of Profit and Loss

10. Taxes on Income:

The provision for taxation is based on the assessable profits determined under the Income Tax Act, 1961. Deferred tax is accounted for by computing tax effect of timing differences, which arisen during the year and reverse in subsequent periods.

11. Earnings Per Share:

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic earning per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

12. Impairment of Assets:

The company assesses at each balance sheet date whether there is any indication that any asset may be repaired. If any such indication exists, the company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account.

13. Provisions, Contingent Liabilities and Contingent Assets:

The company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of the resources is remote, no provision or disclosure is made.
